Manufactured in USA. All comply with EPA Safety Requirements

**Single Certificate Packages:** Single Certificate Packages of 100 & 500 will become a special order (XW) when current supply is sold out. Small size certificates were designed for letter press feeding one up. Small sizes do not fit well on current presses. Multiple certificates on sheet are sized for convenient imprinting on electronic and offset printers.

**Samples:** Please request samples by email or fax to the address location in this document. Goes will mail reasonable samples free of charge. No Express samples unless \$50.00 minimum is satisfied. Sample sheets are cancelled with "Sample" punch in border.

**Laser Gold and Gold ink (metallic)** are special inks suitable for use in Laser printers

**Gold Bronze or Gold Brz:** Goes cautions all purchasers planning to imprint "Gold Brz" or "Gold Bronze" certificate borders on an offset press. The fine bronze particles may adhere to the press blankets and move up the ink train. Charge a wash up for each 1000 sheets. It was traditional to print these designs using cold type equipment.
